

## HOW IT WORKS

30 million people suffer with **CHRONIC DRY EYE**

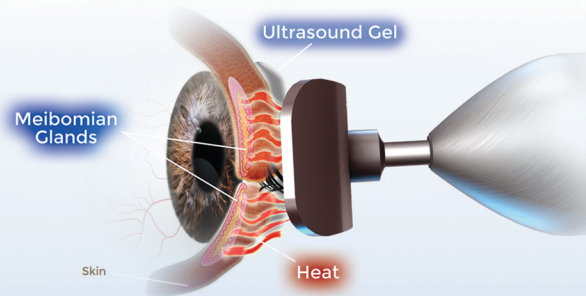

Treatment in the past has been limited to home therapy and medications.

The MiBoThermoflo® is a cost effective **therapeutic medical device** that offers you relief from the suffering of dry eye.

The MiBoThermoflo® supplies **continuous controlled heat** that is applied to the outer skin of the eyelids along with ultrasound gel for a **gentle massage**.

The heat is absorbed deep into the tissue and **breaks down the hardened lipids** in the meibomian glands.

With a specific **prescribed therapy regimen** the ducts of the meibomian glands will secrete **thinner and clearer lipids** which will allow for a **healthier tear film**.

## BENEFITS WITH TREATMENT

**95%**

**PATIENT SATISFACTION**

therapeutic  
**LASTING** BENEFITS
