

MiBo

Thermoflo

by MIBO MEDICAL GROUP

The SOLUTION for patients *suffering* with **CHRONIC DRY EYE**

The MiBo Thermoflo is a **therapeutic medical device providing a safe and effective alternative therapy for chronic dry eye.**

- New stylish design
- Larger 7" screen - Adjustable to multi-angles and collapse for transport.
- Removable hand piece.
- Quicker startup time.
- Faster temperature recovery.

NO PAIN RELAXING
LASTING BENEFITS
 therapeutic
NO SIDE EFFECTS
 IMMEDIATE RELIEF

95% PATIENT SATISFACTION

Features:

Therapeutic: Many patients enjoy the soothing massage and spa-like treatment.

No Disposables: Simply clean the MiBo Thermoflo eye pad between treatments.

Prescribed Therapy Regimen: With a prescribed therapy regimen the ducts of the Meibomian glands will secrete thinner & clearer lipids for a healthier tear film.

“If you don't have the MiBo you're not treating dry eye.”

How MIBO THERMOFLO works

Diagram

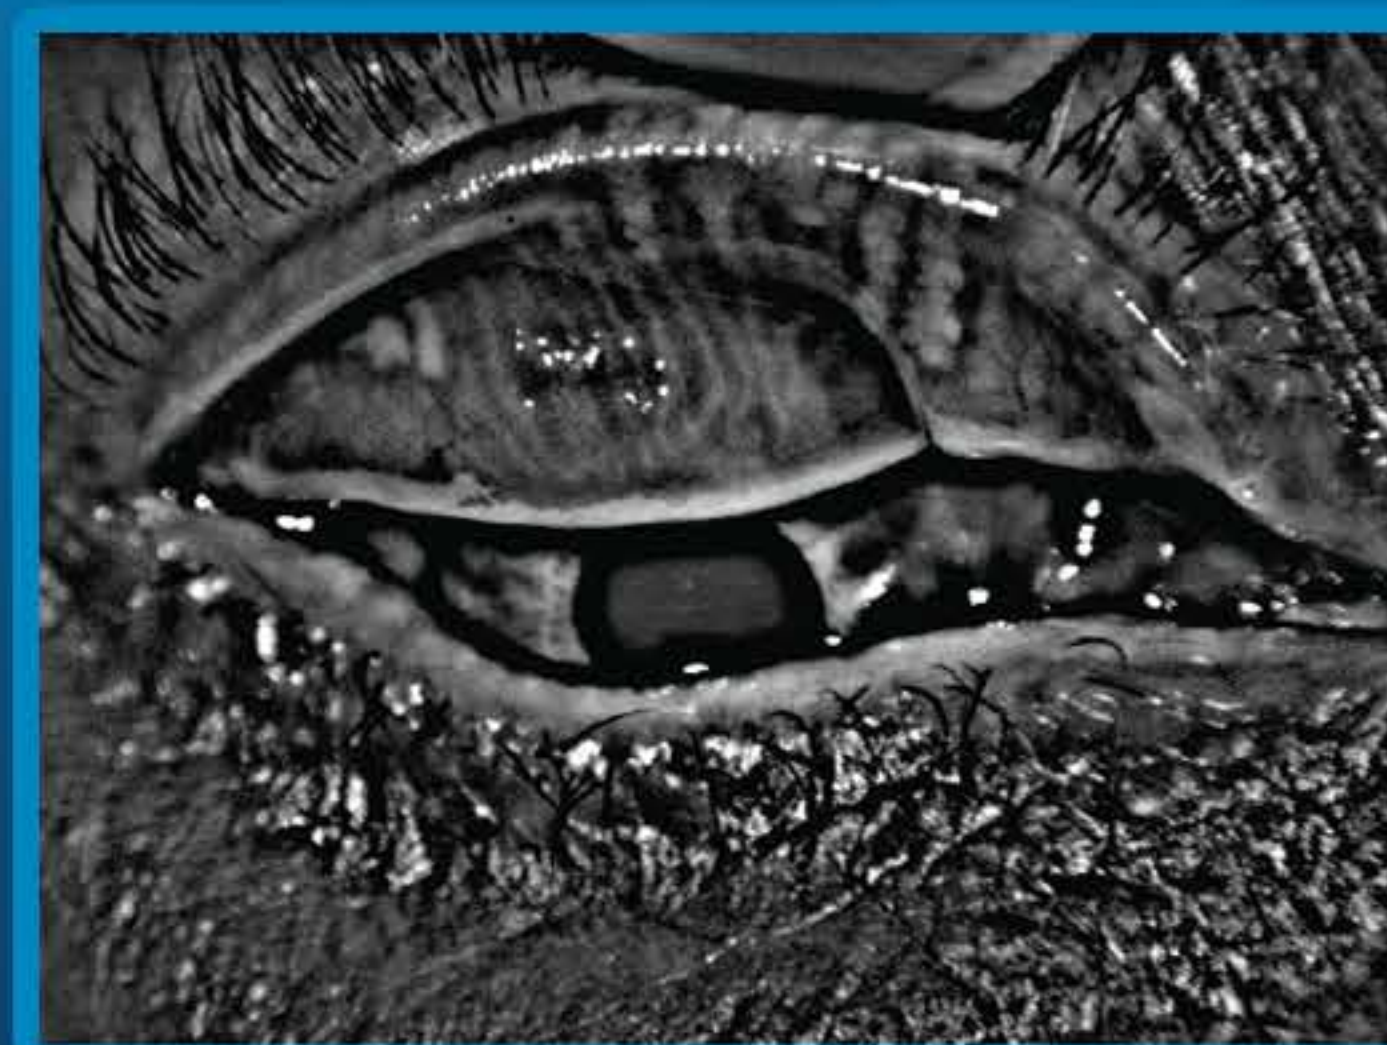

The MiBo Thermoflo supplies **continuous controlled heat** that is applied to the outer skin of the eye lids along with ultrasound gel for a **gentle massage**.

The heat is absorbed deep into the tissue and **breaks down the hardened lipids** in the meibomian glands.

With a specific **prescribed therapy regimen** the ducts of the meibomian glands will secrete **thinner and clearer lipids** which will allow for a **healthier tear film**.
